Tutoring Experience

For over 10 years, I've had the pleasure of helping students master mathematical concepts in both IB and A-Level curriculums. My goal is to ensure students build confidence in tackling difficult topics like calculus, algebra, and probability. I've worked with students from Denmark, the UK, and the US, preparing them for exams with excellent outcomes.

In addition to school-level tutoring, I've supported students in competitive exams such as the SAT and AP Calculus. Many of my students have gone on to pursue maths-related degrees at top universities, demonstrating their strong grasp of the subject after working with me.
